

Clade (n) – /kleɪd/ – *post-self theory*

A group of individuals patterned off a single root consciousness, formed through branching expansion of the forking of its constituent members.

See also: cladistics, cocladist, up-/down-/cross-tree instance, forking, post-self theory.

— The System Central Library Encyclopedia

§

To split oneself among however many individuals, to let the mind drift and diverge, to feel the world from points of view not your own, and then let those memories crash down into you...well, it inspires a feeling best described as 'heady', to say the least.

CLADE

A Post-Self Anthology

10 stories interrogating life in a world beyond the self by
Rob MacWolf, Nathan "Domus Vocis" Hopp,
Madison Scott-Clary, Michael Miele,
Alexandria Christina Leal, Thomas "Faux" Steele,
Evan Drake, J.S. Hawthorne, Kergiby,
and Joel Kreissman
